Charlie Welch Sells Farm

Squire Charlie Welch has sold his farm of something over one hundred and fifty acres two miles out on the Hardwick's Creek road to some shale promoters of Cincinnati for eighty dollars per acre. The deal is to become effective July 1st. From the way these shale men are buying up land of slate deposits it seems they must mean business, and here's hoping they do.

Gosoline has become high and scarce and shale is certainly plentiful in these parts. If there is anything of value in these rocks we hope to see it come forth. If slate makes as good oil as it does roads when applied to them it is certainly dandy.

The Best Catch Reported

Mark Potts is responsible for the following: One day last week he went fishing, baited a hook and left it three feet out of water intending later to put it into the river which he neglected doing. The next morning he had caught on this particular pole a three-pound cat fish. Whether the hook dropped into the water or whether the fish jumped out of the water to get the bait Mr. Potts does not pretend to state. He only knows the bait was out of the water when he left it and that he got the fish.

Return From Indiana

Mr. and Mrs. Alfred Rose have returned from Indiana, where they went a few weeks ago to reside. Mr. Rose had a severe attack of sickness and is now just recovered. They, having their own home rented out, have rented the Everman place at Argyle and will live there until they get possession of their own home.

Memorial Day

Sunday was observed here as Memorial Day while in the cities Monday was observed. When a holiday falls on Sunday it is always the rule for the city fellows to observe the day following. The Fourth of July falls this year on Sunday and it, too, will be observed on Monday.

Old Man Hi Cost

They say old man Hi cost is in a declining stage, but we have failed to see it that way. Clothing is a little cheaper, 'tis said. But then it is wool buying time. For the same reason, flour may be expected to decline a little wheat harvest is most here.

Keeping Campaign Promises?

The State Board of Charities has announced increases in salaries of officers and employees of the State Institutions averaging twenty per cent. Wardens and superintendents are raising from two to three thousand and other raises are of less proportion.

Corn Planting Being Rushed

Farmers are rushing their corn planting while many of them are through and their corn is up. Corn has come up well this time and is starting off fine. The dry weather is good for crops after so much rain earlier.

Whisky Tax Unconstitutional

Holding it confiscatory and prohibitive, the 50 cent per gallon tax on whisky in bond in Kentucky, levied by the 1920 Legislature, was declared unconstitutional by Judge Evans, of the U. S. District Court in Louisville, handing down the unanimous opinion of three Federal Judges, who heard the case of A. and J. Freidberg Company, of Cincinnati, who resisted payment of the tax on whisky. The court enjoined the warehouse company from holding whisky and collecting tax and State Auditor and Attorney General from enforcing the law.

More Autos Than Buggies

There is not a day that one cannot count more autos than buggies in Clay City. This was not thought possible a few years ago. There certainly are more buggies in the county than autos, but they do not get around over town and show off like the automobiles do. But just wait until the fall rains come, then the buggy will predominate again. Autos and mud roads are not good companions. Nor are they friendly one with the other.

Not Doing so Well

Matt Anderson, who sustained an injury to a limb while loading logs last week, is not doing so well as his many friends would like. While the injury is not regarded as dangerous, it is certainly a very bad hurt, and he will be confined to his home for a longer time than was expected when he was first hurt.

Avoids Operation

Elza Williams went to the hospital at Lexington last Friday to be operated upon for what was thought to be gall stones. After a thorough examination it was decided to defer the operation and treat him further for a liver trouble which was caused by the flu settling on him last spring.

Another Truck

Judge Daniel and son, Topher, went to Falmouth Tuesday where they received from the Federal Government one more new truck. This makes two trucks the county has received from the Government—one this year and one last.

Strengthens Over Pass

The L. & N. Railroad has had the over pass across their road in this city partially rebuilt this week. Some of the timbers supporting this bridge had decayed so as to make the repair necessary.

Bridge Being Repaired

The county is having the bridge across the river at Bowen repaired. This Fiscal court will have a meeting sometime next week to attend to some important matters and to pay for this work.

Gets New Buick

L. P. Keith has just purchased a five passenger Buick automobile. This makes three of these machines now in Clay City.

School Property For Sale

The Board of Trustees of the Stanton Graded Common School District having decided to erect a more suitable School building for said District on a more desirable location, will offer for sale to the highest and best bidder at the door of the Old Stanton Graded School building in Stanton on the 21st day of June, 1920, at 1 P. M. the said building and the lots upon which it is situated.

TERMS OF SALE: The purchaser will be required to pay cash in hand or he may execute his bond for a period of six months to the Board of Trustees for his bid, which bond must be signed by surety approved by the members of the Board and shall bear interest at the rate of 6%, said bond to have the force and effect of a Replevin Bond.

C. A. Conlee, Chairman of the Board of Trustees for the Stanton Graded Common School District, Wm Hardwick, Secretary of the Board of Trustees for the Stanton Graded Common School District.

Raid on Moonshine

Arch Caudill together with a moonshine still was captured on Hatton Creek Friday night. He was taken to Lexington yesterday for an examining trial. The other moonshiners had better look a little out as our Sheriff, Garrett, and Deputy, Floyd Wills are getting busy.

Mrs. Nannie Creacy, of Stanton, came up to decorate graves at Nada and visited a few days with friends and relatives.

Martin Ford is having his house treated to a new coat of paint and a metal roof. Bob Stone, of Clay City, is doing the painting.

Mrs. R. B. Ewen was at Stanton Monday to consult Dr. Johnson. We need a doctor in this vicinity, having none nearer than Stanton or Zachariah.

Ye scribe has been so busy plowing and replanting corn that the news from Slade has not been gathered this week. Would be glad if the neighbors would hand in items of interest.

Some young men from Wolfe county are frequent visitors to Slade here of late. Will give their names later when we interview some of our young ladies. The name of one is Sam.

Bobby Smith, of Estill county, has just closed another singing school at Nada. There is quite an improvement in their singing and we cordially invite them to Slade next second Sunday when brother Adams comes.

Sunday afternoon the fraternal order of Juniors marched from the Hall to Nada and had speaking and decorated the graves of the late William Centers, Charlie Lyth and Dr. G. W. Ewen. There was a large crowd present and nearly all the graves were decorated by friends and relatives who live near the grave yard.

Mr. and Mrs. J. A. Bowen had a reunion of their family the 30th. All of their children came home to spend Decoration day. Misses Maude and Annie returned to their schools Monday. Maude is attending State Normal and Annie teaches near Zachariah. Green Bowen returned also to his work in Ohio, while Cassius Bowen

and Mrs. Bruce Trimble remained with their parents a few days longer. Mr. and Mrs. Wayne Bowen, of Rosslyn, returned home Monday evening.

VAUGHN'S MILL.

H. C. King was at Stanton Saturday on a business mission.

Mr. and Mrs. John Hiley Jr. are here on a visit to the former's parents, Mr. and Mrs. John Hiley Sr.

A gypsy band has pitched their tents on Upper Hardwick's Creek. Farmers and your "better halves" be ware of "hoss swapping" and fortune telling.

Noah Russell, of Furnace, has been making frequent trips to our vicinity of late, but nobody has discovered his business except one. Can you guess who?

Rev. R. C. Caudell, of Indian Fields, is conducting a series of meetings at Todd's Chapel, between here and Spout Spring. This meeting began Monday night and will continue about ten days.

John Larison, about 70 years of age, died Tuesday, May 18, of acute indigestion at the home of his son, Kaiser. He was laid to rest in the Wells grave yard. There remains to mourn his death two sons and one daughter, Mrs. Isaac Sams.

Mr. and Mrs. George Gravett and family departed Tuesday for the oil field near Willhurst, where the former has a contract to drill several wells. We regret very much to give up this highly prized family but hope they will be in our midst again with the falling of the leaves.

The following former residents from the Blue grass section were among relatives here for Decoration day: Mr. and Mrs. Bert Barnett and children, Mr. and Mrs. Mack Gravett and children, Mr. and Mrs. Morgan McKinney, Mr. and Mrs. T. J. Wright, Mr. and Mrs. Joe Shimmfessel, Mr. and Mrs. Sam Rupard, Jas. I. Mize and Frank Wright. There were many others present whose names we did not learn.

The CHEVROLET An ELEGANT ECONOMICAL Car

Below we call your attention to a few advantages of the Chevrolet. Don't forget these when considering buying a car:

- 1st. It has a valve-in-head motor with a rating of 18 h. p. which is sufficient power to take you anywhere, yet very economical in the use of fuel. The valve-in-head motor produces 20% more power than the usual L-head type. This statement is backed by the Society of Automotive Engineers.
- 2nd. It has a complete starting, lighting and ignition system which doesn't give trouble, and which has been successfully used for several years.
- 3rd. It has a force feed oil system with a pressure gauge on the dash so the driver is always able to know whether his motor is getting oil.
- 4th. It has a selective type transmission with 3 speeds forward which enables you to climb most any hill without using low gear.
- 5th. It has demountable rims all around with an extra rim and carrier in the rear. This means you can carry an extra tire all blown up ready for change in about one-fifth the usual time.
- 6th. It has the honeycomb radiator with a water pump to insure positive circulation, and which will keep your motor cool, eliminating overheating and big repair bills.
- 7th. A door is provided next to the driver so it isn't necessary to disturb other occupants of the car to get in and out.
- 8th. The Chevrolet uses the Zenith carburetor as standard equipment. This is recognized as the best carburetor made and is the kind used on the famous Liberty airplane motor.
- 9th. A Stewart speedometer is put on every Chevrolet car. In addition to keeping you accurately informed at all times of the speed you are making, it keeps a record of the distance covered and you are thus enabled to check your tire, oil and gasoline mileage.
- 10th. This car has a smooth, velvety action found in no other. There is a noticeable absence of vibration at any speed. Everyone can appreciate this feature, even the car itself will give you a longer period of service by being so built.

There are many other advantages which we are willing and ready to explain. We can prove all our claims, you don't have to take our word. The price, which we haven't mentioned yet, will impress you most of all. Let's talk it over.

Ford
THE UNIVERSAL CAR

The Ford Touring Car is literally the pioneer in the solution of the Good
Roads problem, because three million or more in operation brought up to the
millions of America the necessity of good roads if quick transportation at low
expense was to be enjoyed. The simplicity of the Ford car, its stability in
construction, the famous heat-treated Vaaadium steel with its marvelous strength
and flexibility, the low cost of operation and maintenance, its ease in operation,
all have made the Ford car the great favorite in every land in the world. It's
the one car that always satisfies and serves. A utility beyond question that all
can afford. We sell them and will be pleased to have your order. Don't delay,
because the demand is heavy all the time. We have almost everything in motor
car accessories, carry the genuine Ford Parts, and assure the best in mechanical
repair work.

Another Shale Plant

Irvine seems to be in luck too. The report comes from there that a \$2,500,000 shale plant will be built opposite the river from the Estill Capital. We hope this is true, for we would not like to get our shale plant and be this much ahead of our neighbor.

G. B. Conlee Sells Farm

Mr. G. B. Conlee has sold his splendid river farm near Hammond's Ferry bridge to his brother, T. L. Conlee, for \$9,780 which is approximately one hundred dollars per acre.

That nice little dry spell of weather which was worth so much to the farmers has broken up with a big rain and a promised June tide. This means further delay for the backward river farmer in finishing his corn planting.

Dr. Nickell, the dentist, is in the city practicing his profession. He will be here all of this week and next; At Filson all of the week of June 14; At Stanton Circuit Court week.

Quite a lot of lumber is being hauled here and shipped out by Shelt McKinney and O. L. Daniel who are operating portable saw mills on Hardwick's cree.

G. H. Westlake and family are moving to Bowling Green this week, where they will engage in the oil industry.

Several persons have donated work on the new State aid road. A most lovely rep for this new highway.

GENET

All kind of crops are looking fine.

J. H. Mills has shook the Powell county dust from his heels and gone to Bell county.

The fruit crops promise to be fine, including the old "stan bi" the toothsome blackberry.

J. H. Mullens and wife came down from Torrent Sunday morning to attend the decoration of graves at the cemetery.

J. A. Crabtree is now a full fledged officer of the law. We won't tell what kind of an office he fills but "here arter" you had best pay your debts or Abe will get "ye ef" you don't watch out.

Decoration at the cemetery was well attended. The ones from a distance we noticed were: Nannie B. Rogers and Attie Rogers, of Xena; Mrs. J. P. Crabtree, of Bowen; Mrs. Sarah Holmes and Miss Gonnice Holmes, of Filson.

And the man who made a corking good shoe that retailed for \$3 a pair became Governor of a great state. The manufacturer who restores that price for equally good shoes will be in danger of being elected president for life.

Young Millard Hall from South Fork came Tuesday to Reuben Townsend's in serious condition from drinking moonshine liquor. He became much better Wednesday morning and left for his home. Just a little moonshine liquor knocks one out occasionally now as most of it is full of poison.

A sweet tooth is an expensive possession just now.

Jawndee, Jr., divides his time between social uplift and oil price uplift.

When an office goes seeking a man, it always finds him at home, with the door open and a "Welcome" mat before it.

The American Woolen Company reports huge profits last year, which is no surprise to buyers of suits alleged to contain wool.

Dr. Crafts would put a million dollar tax on each pint of whiskey. We have known some men who could drink a pint and feel able to pay it.
